

Democracy And Freedom...Today!

The training camp for the Movement at Al Bu'ayrat is a key installation in furthering the struggle against the decadent and greedy nations of the North.

Many hundreds of our fighters have been trained there, and continue to be trained there, thanks to the support and encouragement we have received from that nice General Qaddin of Libya.

The cowardly members of the Pan European Coalition (PEC) cannot touch us. They dare not send their aircraft to bomb us because of the formidable air defences the camp possesses, and they lack the political strength to use their advanced satellite weapons on us - knowing that world opinion would never tolerate such an act. Many successful and daring raids have been planned here, and executed by graduates of the camp.

Foremost among the trainers and supporters of the Cause is Brigadier Watney, who although coming from the North is a dedicated convert to our way. He, more than anyone else in the Movement has been responsible for the greatest misery in the camp of our enemies. He is currently in the camp supervising a new course (Advanced Social Disruption 101).

But wait...what is this?..the armed forces of our Libyan allies report that there is a strong naval force assembled off the coast, and that PEC aircraft are probing the air defences. What can it mean - surely they wouldn't..couldn't..attack us here?

Perhaps it would be best to put the defences of the Camp on alert, just in case.
